

### Flag of Antarctica

### Flag of Antarctica (proposed)

### Mapping Antarctica

Using an atlas or other resource, find and label the following on the map:

1. Find and label the South Pole with a star.
2. Find and label the following oceans: Atlantic, Southern, Pacific.
3. Use triangles to show the Transantarctic Mountain range.
4. Find and label the Weddell Sea.
5. Find and label the Ross Sea.
6. Find and label the Antarctic Peninsula.
7. Outline the Ronne Ice Shelf and shade it gray.
8. Outline the Ross Ice Shelf and shade it orange.

### Flag of Antarctica (proposed)

Antarctica does not have an official flag, because it is not officially a country and does not have a government. There is a treaty in place, the Antarctic Treaty System, that helps keep Antarctica safe as a scientific preserve.

The Antarctic Treaty System adopted a flag and emblem in 2002, but it has not become the official representation of Antarctica. The flag has a dark blue background and shows the continent of Antarctica.

In more recent years there have been several unofficial designs suggested as the official flag, but none has been adopted.

### Antarctica Factsheet

Antarctica is in the \_\_\_\_\_ hemisphere.

Antarctica was first explored by \_\_\_\_\_.

The climate is \_\_\_\_\_.

\_\_\_\_\_ because it is not officially a country and is a scientific preserve.

\_\_\_\_\_ flag and emblem in 2002, but it has not become the official representation of Antarctica.

\_\_\_\_\_ several unofficial designs suggested as the official flag, but none has been adopted.

Using an atlas or other resource, find and label the following on the map of Antarctica.

1. Find and label the South Pole with a star.
2. Find and label the Southern Ocean.
3. Use triangles to show the Transantarctic Mountain range.
4. Label Mount Vinson with a red triangle.
5. Find and label the Weddell Sea.
6. Find and label the Ross Sea.
7. Find and label the Antarctic Peninsula.
8. Outline the Ronne Ice Shelf and shade it gray.
9. Outline the Ross Ice Shelf and shade it orange.
10. Trace the Prime Meridian's path using a dotted line.
11. Find and label the location of the McMurdo Station.

# Flag of Antarctica

# Flag of Antarctica (unofficial)

Antarctica does not have an official flag, because it is not officially a country and does not have a government. The Antarctic Treaty System is a treaty in place between many world governments that helps keep Antarctica safe as a scientific preserve.

The Antarctic Treaty System adopted a flag and emblem in 2002, but it has not become the official representation of Antarctica. The flag has a dark blue background and shows the continent of Antarctica.

In more recent years there have been several unofficial designs suggested as the official flag, but none has been adopted.

# Flag of Antarctica (proposed)

Although there isn't an official flag for Antarctica, several different designs have been submitted, including one by Graham Bartram.

The above design uses a plain white map of the continent of Antarctica set against a blue background. The blue color is symbolic of neutrality because there have been many different claims of the continent.

A full-sized flag using this design has been flown on the continent of Antarctica, as well as in several other countries, making it "official" in the eyes of many.

# Flag of Antarctica (proposed)

Although there isn't an official flag for Antarctica, several different designs have been submitted, including one by Whitney Smith.

The above design uses an orange background, which is the color representing international rescue. The emblem on the left is white and has several different parts that make it up: a half-circle, two hands, and the letter "A". The color white is symbolic of the snow and ice in Antarctica.

The bottom half-circle represents a globe and shows Antarctica's location on the Earth. The two hands holding the globe are symbolic of humans using the continent peacefully. The letter "A" is representative of Antarctica.

This flag has never been created or displayed.
