

# Homeschool Goals and Planning

This set of printables was created to help you as you create a plan for your school year ~ both for yourself personally and for each of your children. As you put together your vision statement for your school year, think about the following questions:

- What prompted you to homeschool?
- How do you envision your homeschool time?
- What do you want to be able to say at the end of the school year?
- Are there specific things you want to see in your family as a result?
- What character traits do you want to work on?

The remaining pages are to help you in your overall planning and goal setting for your children. Set academic and other goals for each child in the various subject areas you intend to cover. Be sure the goals are ones that are both measurable and attainable. :)

The final calendar page is for you to print off {make a copy for each month} and write down any important activities, plans, or things you would like to accomplish in that month.

Be sure to check out the [Homeschool Basics series](#) on my blog for other helpful information and encouragement in homeschooling. You'll find posts on knowing the law, teaching styles, learning styles, organization, and more.

If you would like to share, please share a link to my blog or to the page that hosts these files. **Please do not link directly to just the PDF files** (the link you are at now). Please feel free to print this pdf file for your own personal use. They were created for private and non-profit use. Please do not sell or host these files anywhere else.
