Calendar Pieces

The January Calendar Number set includes a monthly title {above} to use with your pocket calendar as well as three full sets of numbers using different theme-related objects. If you need days of the week to use in your pocket chart, there is a page at the end of this document for you to use.

Print these cards onto cardstock, laminate, and use in a pocket chart for daily calendar practice. We use [this pocket chart](#) and have had it for over fifteen years!

Tip #1: Save money on laminating with [these {much more} affordable pouches](#). They work GREAT and help cut costs!

Example: Use the number cards to make simple or complex patterns with your child.

ABC Pattern ---->

1	2	3
		

ABAB Pattern ----->

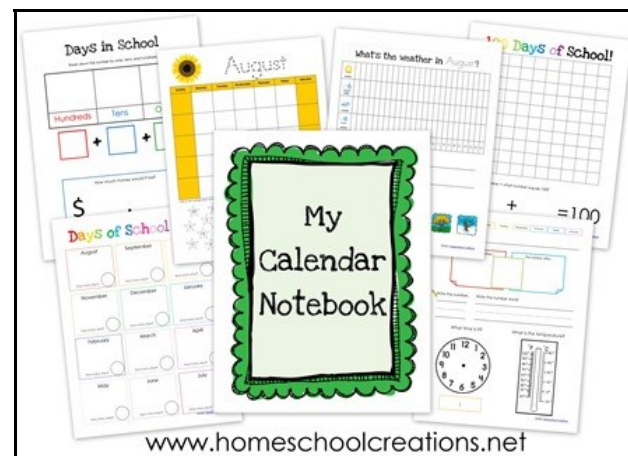

1	2	3	4
			

AABB Pattern ----->

Tip #2: Print all pages off onto cardstock and laminate for added durability. **To save laminating film, try putting two pages back to back before running them through the laminator.** Then the fronts of the cards will be 'smudge-free' and you save a bit of laminating film.
